

CASE STUDY: FYB

**By considering multiple critical financial factors, FYB offers a reliable and user-friendly solution for business valuation.**

## Introduction

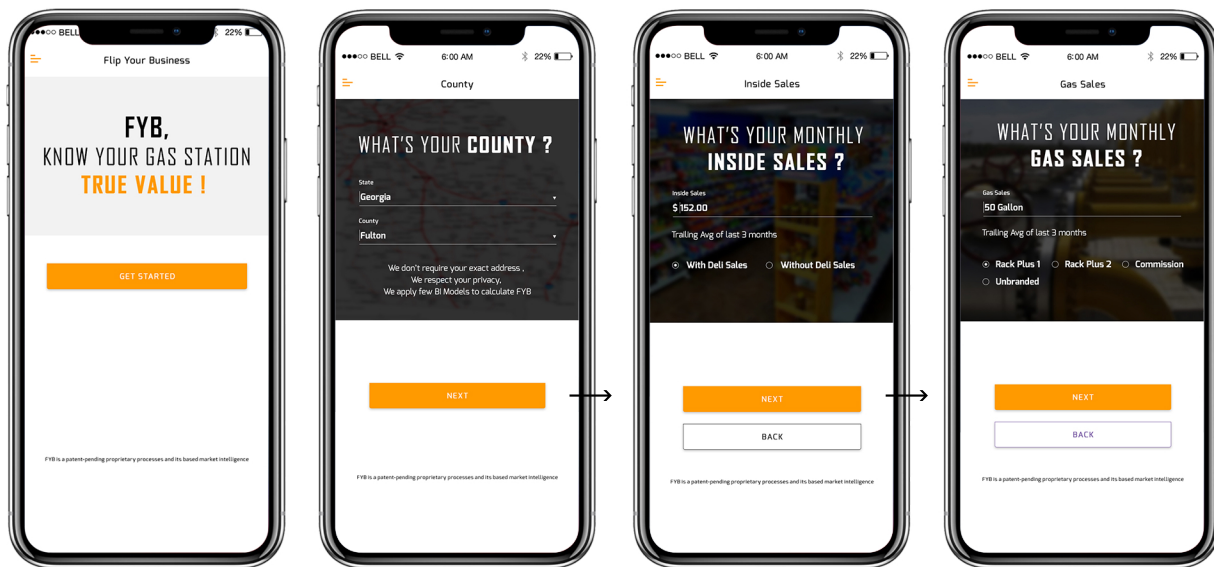

FYB is a mobile application designed to help gas station owners determine the true value of their businesses. By considering multiple critical financial factors, FYB offers a reliable and user-friendly solution for business valuation, enabling owners to make informed decisions about selling, purchasing, or improving their gas stations.

## Project Overview

The FYB app was developed to simplify and automate the process of calculating gas station valuations. Traditional valuation methods often require significant expertise or reliance on external consultants, making the process time-consuming and costly. FYB bridges this gap by providing a streamlined, intuitive platform where gas station owners can input key financial metrics and receive accurate valuation insights in real time.

# The Challenge

Gas station valuation is a complex process that depends on various revenue streams and cost factors. To develop FYB, the challenge was to create a robust calculation engine that considers diverse metrics such as monthly inside sales, gas sales, rental income, commission income, utility expenses, mortgage/rent, and payroll costs. The app also needed to

# Client Expectations

The goal for FYB was to provide gas station owners with:

- ✓ A straightforward, easy-to-use interface for inputting financial data.
- ✓ Accurate valuation results based on a comprehensive formula accounting for multiple factors.
- ✓ Insights to help owners identify potential areas for improvement in their operations.
- ✓ A secure, mobile-friendly platform accessible anytime and anywhere.

# Approach

To meet these objectives, we developed FYB with the following key features:

## ✔ Comprehensive Valuation Metrics

The app incorporates multiple revenue and expense streams, including inside sales, gas sales, rental and commission incomes, utility costs, mortgage/rent, and payroll. This ensures a holistic view of a gas station's value.

## ✔ User-Friendly Interface

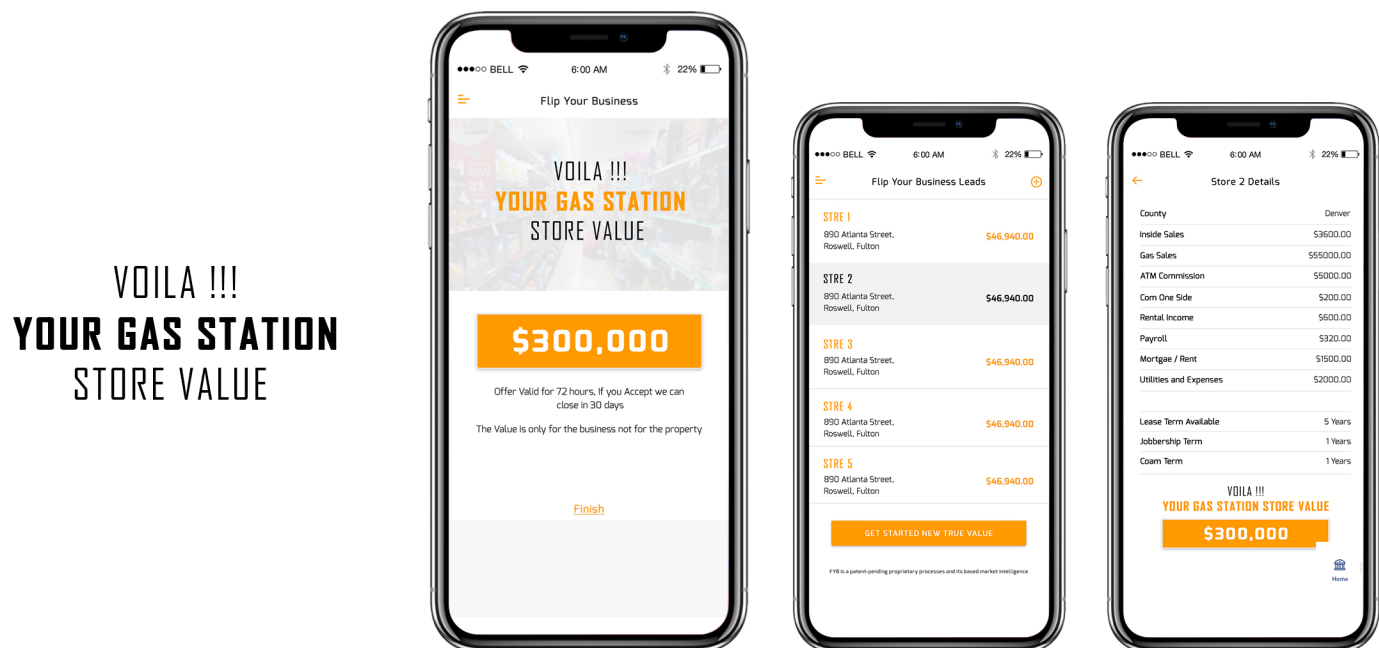

With an intuitive design, users can easily input data without requiring technical or financial expertise.

## ✔ Real-Time Calculations

FYB's powerful backend processes data instantly, providing accurate valuation results on the spot.

## ✔ Insights and Recommendations

Beyond valuation, the app provides actionable insights to help users identify opportunities to maximize profitability.

# How We Helped FYB Grow

The development of the FYB app introduced a significant technological advancement in the niche industry of gas station valuation. By offering an easy-to-use platform, FYB empowered gas station owners to:

- ✓ Save time and costs associated with traditional valuation methods.
- ✓ Gain confidence in making business decisions with accurate, data-driven insights.
- ✓ Improve operational efficiency through targeted recommendations provided by the app.

## Platforms and Technologies Used

Android

iOS

Java

## Tangible Results

### Enhanced Decision-Making

95% of users reported feeling more confident about business decisions after using FYB.

### Increased Accessibility

Gas station owners across the country adopted the app, with 80% using it as a primary valuation tool.

### Time Savings

Valuation processes that previously took days were reduced to minutes, allowing owners to focus on growth and strategy.

## Client's Perspective

FYB provided a game-changing solution for gas station owners, transforming a traditionally cumbersome process into a seamless digital experience. The app's accuracy, speed, and ease of use received high praise from users, many of whom highlighted its role in improving their business operations.

## Insights and Lessons Learned

### **Focus on Simplicity**

A user-friendly design was critical to ensuring adoption, especially among users unfamiliar with financial calculations.

### **Comprehensive Data Consideration**

Incorporating diverse financial metrics provided a more accurate valuation model, setting FYB apart from generic tools.

### **Real-Time Functionality**

Instant calculations significantly enhanced user satisfaction and efficiency.

FYB is a testament to how innovative technology can address niche industry challenges. By offering a specialized tool for gas station valuation, the app not only simplified a critical business process but also empowered owners to make smarter, data-driven decisions for their businesses.
